It’s the RPI Advantage! Included in this Kit are a PM Sticker that can be attached to the compressor for recording the date that the filters and compressor oil were replaced; as well as a one gallon clear plastic bag with cap, built in handle, and expandable base that can be used to easily collect and dispose of used oil.

4 Essential Tools for an Easier Oil Change!

1. SYRINGE PUMP/EXTRACTOR (RPI Part #RPT842)
   This one-of-a-kind tool allows complete removal of oil from a compressor without needing to tilt or disassemble the unit!

2. DRAIN VALVE (RPI Part #RPV841)
   Upgrade to RPI’s one-of-a-kind Drain Valve which has a special Tee-handle that allows you to easily open and close the valve to control the flow of oil as it is draining into the Disposal Bag!

3. DISPOSAL BAG (RPI Part #RPB838)
   The perfect solution for carrying, storing and disposing of used oil. This one gallon bag is constructed of durable clear plastic with an expandable base, a built in handle, and tight sealing cap.

4. COLLECTION CONTAINER KIT (RPI Part #’s CMK180 & CMK181)
   This one-of-a-kind collection bottle can replace the purge drain lines and be directly connected with tubing to the compressor so that the purge waste water and oil can be collected and disposed of properly according to local, state and federal regulations.
